

## I JUST WANTED YOU TO KNOW

By: Randy Swift

God told Abraham take Isaac up the mountain  
And there make him a sacrifice to me  
I know tears rolled down & breath was hard to come by  
While Abraham was knelt there on his knees

So hand in hand they headed up the mountain  
And he thought about the thing that lay in store  
Like shattered glass inside his heart was breaking  
Cause he'd never known a pain like this before

Too soon they reached that spot where they were going  
And he laid Isaac down on his death bed  
His heart raced as he drew the knife to strike him  
But a God of mercy stopped him and he said

I just wanted you to know exactly how it feels  
To watch a son you love, walk up a lonely hill  
To feel the pain inside as your heart breaks in your chest  
To lose the very thing that you love the best  
So now you've walked the walk and I know you understand  
The price that must be paid to correct the sins of man  
And you'll know just how I feel when they walk him up that hill  
I just wanted you to know.
