

Life Beyond Death

The angels of death are around me
So near is my very last breath
And then I'll be living where I'll be
In a land where there's life beyond death

There's life beyond death up in heaven
So loved ones please meet me at rest
We'll have us a family reunion
In a land where there's life beyond death...

Sickness and pain cannot enter
In a land where there's eternal rest
For death has prepared my way homeward
To a land where there's life beyond death...

Loved ones shed tears for the sinners
Smile with me I'm going to rest
To live in a land with my savior
In a land where there's life beyond death...
