

## That Same Spirit

Jesus said it is expedient for me to go away  
But I'll send you another comforter  
Who will guide you from day to day!  
So they tarried at Jerusalem for power from on high  
That same spirit that they received  
Within my heart abides...

I can feel his Holy Spirit now dwelling deep within  
And sometimes it feels so gentle  
Sometime it like a mighty rushing wind  
That same spirit that raised Jesus up  
From death and the grave  
It will raise this old' body up  
And take me home someday

Well they laid him in an empty tomb  
And they rolled a big ole' stone down by the door  
They put some soldiers down there to guard it  
You know they thought they done away with my Lord  
But on that third day the stone was rolled away  
And he came forth from the grave  
That same spirit that brought Jesus out  
Is gonna carry me home some day...
