

Hope Is Alive

Randy Swift

Sometimes the world seems like a hopeless place
A perfect picture of a hopeless case
Cause somehow every now and then
The whole world just comes crashing in
Till it seems like every breath of hope has died.

*Hope is alive, Hope lives on
Hope's not dead and Hope's not gone
Just like a heart that beats through the night
There's still a beacon shining bright
When we are weak, Hope makes us strong
When there is silence, Hope brings a song
Out there in a world that seems so wrong
Hope lives on!*

I still recall that bright September morn
When the towers fell and all our hearts were torn
Just going about their daily routines
They were as innocent as could be
When the darkness came to take their Hope away
